

**REMARKS**

Claims 25, 38 and 39 have been amended to correct informalities. Claims 44-66 have been withdrawn in accordance with the Examiner's election requirement.

New claims 67 and 68 depend from claims 1 and 21, respectively, and recite a tensile strength of at least about 18 MPa. Support for this limitation is found in the specification as filed at page 14, lines 16-21.

Please direct any questions or comments to James V. Suggs at 607/974-3606.

Respectfully submitted,

CORNING INCORPORATED
